01

CHAPTER 1

The Non-Tech Remote Opportunity

The \$50k–\$90k remote roles most people don't know exist

When most people think 'remote work,' they think software engineers and developers. That's a tiny slice of the remote job market. The actual opportunity is much broader — and it's largely untapped by people without technical backgrounds.

Role	Salary Range	Core Skills
Virtual Assistant	\$35,000–\$65,000	Admin, scheduling, email management, research
Customer Success Manager	\$50,000–\$85,000	Client relationships, onboarding, retention
Project Coordinator	\$45,000–\$75,000	Managing timelines, stakeholders, deliverables
Remote Sales Rep	\$50,000–\$90,000+	Inside sales, SDR, account management
HR/Recruiting Coordinator	\$45,000–\$70,000	Hiring, onboarding, HR administration
Operations Analyst	\$55,000–\$85,000	Process improvement, data, reporting
Content/Marketing Coordinator	\$40,000–\$65,000	Social media, email, content scheduling
Remote Bookkeeper	\$40,000–\$70,000	Accounts payable/receivable, reporting

02

CHAPTER 2

Skills Audit

Mapping your existing experience to remote job requirements

Before you think about what you're missing, inventory what you already have. Most people dramatically undervalue their existing skills when pivoting to remote work.

My Transferable Skills Inventory:

- Communication (written, verbal, presentation)
- Project management (have you coordinated anything?)
- Customer/client relations
- Data entry and spreadsheet skills
- Scheduling and calendar management
- Research and information gathering
- Team coordination and follow-up
- Any software tools (Excel, Google Workspace, CRM, etc.)

03

CHAPTER 3

The Fastest Path to Qualification

Free courses that remote employers actually care about

The good news: most non-tech remote skills can be learned free or cheaply online. Google Project Management Certificate (\$0 on Coursera financial aid), HubSpot CRM certification (free), Google Analytics (free), Asana + Notion basics (free YouTube + official docs). Most of these take 20–40 hours. Do them while job searching.

04

CHAPTER 4

Resume & LinkedIn for Remote Jobs

What remote employers actually look for

Remote employers filter for two things: can you communicate clearly in writing, and do you have experience working independently? Your resume must answer both. Add 'remote' to job titles where applicable. Highlight async communication tools you've used. Quantify everything: 'managed scheduling for 3 executives' beats 'provided administrative support.'

05

CHAPTER 5

Where Remote Jobs Actually Are

The job boards most people never check

Main boards: LinkedIn (filter: remote), Indeed (remote filter), Wellfound (startup remote jobs), Remote.co, We Work Remotely, Flexjobs (paid but curated). Industry-specific: Bevy (events), Supportdriven (customer support), Hubstaff Talent (free for employers). Niche boards consistently outperform general ones for non-tech remote roles.

06

CHAPTER 6

The Outreach System That Gets Callbacks

Reaching hiring managers before the posting goes viral

Most candidates apply to postings that already have 200+ applicants. A better approach: Find the hiring manager on LinkedIn → Send a direct note (not InMail) → Reference something specific about the company → State what you bring → Keep it under 100 words. Response rates on direct outreach are 5–10x better than application-only approaches.

07

CHAPTER 7

Acing the Remote Interview

Camera presence, async tasks, and remote-specific questions

Remote interviews test an extra layer: can you project competence and personality through a screen? Technical setup matters: good lighting, clean background, reliable internet, no echo. Async tasks are increasingly common — treat them like a real work sample, not a test. Questions you'll get: 'How do you

manage distractions at home?' 'Walk me through a project you ran asynchronously.'

08

CHAPTER 8

Evaluating Offers & Negotiating

How to negotiate your first remote offer

Remote roles often include: equipment stipend (\$500–\$1,500/year), home office allowance, internet reimbursement, and flexible hours. These are negotiable even when salary isn't. Standard negotiation: 'I'm very excited about this opportunity. Based on my research and experience, I was hoping we could get to [\$X]. Is there flexibility?' Then stop talking.

09

CHAPTER 9

Your First 90 Days

How to prove yourself and get promoted faster in a remote role

The biggest risk in a remote job is being invisible. Overcommunicate in the first 90 days. Send weekly updates even when not asked. Build relationships proactively (virtual coffee chats). Deliver early and visibly. Document your wins. Remote promotions go to the people who are noticed — and being noticed remotely requires intentional effort.

10

CHAPTER 10

Building a Remote Career Long-Term

Visibility, growth, and the isolation trap

Remote work isolation is real. Build intentional social structures: daily check-ins with teammates, a coworking space a few days a month, an industry community or Slack group. Career growth: volunteer for cross-functional projects, build internal visibility, and have explicit career conversations with your manager every quarter.

11

CHAPTER 11

Tools & Resources

Your complete remote work toolkit

Communication: Slack, Zoom, Loom. Project management: Asana, Notion, Monday.com. Time tracking (if required): Toggl. File sharing: Google Drive, Dropbox. Focus: Forest app, Focusmate (virtual coworking). Remote job search: LinkedIn, Wellfound, We Work Remotely.

12

CHAPTER 12

Your 90-Day Job Search Plan

Week-by-week action plan from decision to offer

Days 1–7: Skills audit complete. Target roles identified. LinkedIn optimized. Resume v1 written.

Days 8–14: First 20 applications submitted. First course started.

Days 15–30: Outreach to 10 hiring managers. First interviews. Network expanding.

Days 31–45: Course completed + certification earned. Application volume increased to 40+.

Days 46–60: Second-round interviews. Offer evaluation criteria written.

Days 61–75: Negotiation practice. References prepped. Offer decisions.

Days 76–90: Target: signed offer. Notice given. Transition planned.
